

Announcement from Belgian Nursery

March 16, 2020

To our valued customers,

From what the experts are saying, covid-19 is not going away anytime soon. To reduce its impact requires slowing its spread. The health and well-being of our customers, communities and team members is of our utmost importance and will be the primary consideration in all decisions and actions we make now and moving forward.

Belgian Nursery will be implementing some changes. **Effective March 17 we will be Temporarily Closed to the public to reduce Covid-19 impact.** As this situation is fluid, we will stay as up to date with Health Canada recommendations on a daily basis. We expect to remain closed for approximately 2 weeks.

Our plants continuously need care. We will continue watering and grooming our houseplants, cacti and succulents. We will carry on with transplanting and growing our Annual and Perennial crops for the upcoming spring planting season. We will do this with abundance of caution to ensure healthy staff at all times. We have added additional protocols for extra cleaning, washing and sanitizing areas. We have respectfully asked our employees who are feeling ill, regardless of symptoms, to refrain from coming to work.

We thank you for your patience and understanding during this challenging time.

Sincerely,

Belgian Nursery
Luc & Rosie Lombaert
